**RE: Enderby-Mabel lake road speed limits**

Dear Sir:

I am writing in response to your letter of December 17<sup>th</sup> 2013 to Mr. Dirk Nyland regarding potential speed zone changes on Enderby-Mabel lake road. Mr. Nyland has forwarded your letter onto myself as this road falls under my jurisdiction. My apologies for the late response to your letter.

Our Ministry understands the importance of Enderby-Mabel lake as a destination for both residents, locals and tourists. As the amenities in the Mabel lake area continue to grow we acknowledge that we must also continually review Enderby-Mabel lake road.

I have reviewed the options presented by the regional district and have forwarded the information to our Regional Traffic Engineering group in Kamloops. I have asked them to review these options and provide their recommendations for the most appropriate speed zone throughout the area mentioned in your letter. Depending on the data they have on hand they may require additional information which is best gathered during the peak summer season in order to make their recommendations.

→ ✓ I would ask that your local staff work with myself directly as I will be working with the Regional Traffic Engineering group on the proposed speed zone change. Should you have any further questions or comments please feel free to contact me at 250-503-3608.

Sincerely,

Erik Lachmuth  
A/ Operations Manager
