

Apartment Safety

- Never allow strangers to enter your building without proper screening. Be aware of tailgaters trying to enter your building by following you in through the front door or parking garage.
- Use the intercom wisely. If you do not know the person do not buzz the door. If someone claims to have a delivery for you, go down to the lobby to let them in.
- Lock your patio door or windows when you are out of the room and at night to prevent a thief entering your suite. Use your suite door locks even if you intend to stay in the building or just take out the garbage.
- Do not store valuables in storage lockers.
