

**An Official Community Plan (OCP)** is a document that outlines directions for the future of an area. The plan captures community values and the residents' vision for their future.

The content of an OCP can include:

- Proposed land use and density;
- Transportation, water and wastewater infrastructure;
- Environmentally sensitive areas, parks and open space;
- Housing needs and policies;
- Public facilities, including schools, health care, etc.
- Neighbourhood character;
- Social policies;
- Economic development;
- Targets, policies and actions for the reduction of GHG emissions.
- The regulation of development
- Building and landscape design guidelines

We are here

### Plan Process

The goals of the Official Community Plan process are to:

- update policies to reflect current community visions and values, including community responses to growth and plans for sustainability.
- ensure policies are consistent with current legislation.
- create process and policies that have the support of the region (plan area), agencies, and neighbouring municipalities and First Nation communities..

Thank you for attending this meeting. Your opinions are valued. Please take this opportunity to review the panels and comment on the information presented. Opportunities for community input include:

- return questionnaires posted on the website or available at the Open House.
- provide input at the Open House
- submit general comments or questions to the North Okanagan Regional District.

*Note:* The majority of the information presented in these panels is from Community Profiles, Statistics Canada 2006.
