BC Wildfire Preparing for Scheduled Burns near Mable Creek and Woodward Fires

The Regional District of North Okanagan is notifying all residents of scheduled burns to be conducted by BC Wildfire on Tuesday/Wednesday this week, subject to weather conditions.

Controlled burns will take place on both the current Mable Lake Creek and Woodward fires. Residents should not be alarmed if they see additional smoke arising from these sites. The intention of the scheduled burns is to reduce fire fuels between the active fire and the guards so there is no longer a path for the flames to follow.

An interactive map of active BC wildfires can be found at www.bcwildfire.ca, or for more information on wildfires effecting the region please visit www.emergencyinfobc.gov.bc.ca.

Residents can also receive instant updates on all Emergency Management topics by subscribing to the RDNO email list at www.rdno.ca/subscribe.

For further information, please contact us at 250.550.3700 or communityservices@rdno.ca.
