

## **DEMAND SIDE MANAGEMENT COORDINATOR (REGULAR, FULL-TIME)**

The North Okanagan is an exceptional place to live, work and explore. With its diverse landscapes and extraordinary recreational opportunities, our residents enjoy a comfortable balance of work-life activities. With a regional population of 92,000, the Regional District of North Okanagan offers a wide range of services directly to residents and through partnerships with its six member municipalities.

We have an immediate opening for the regular, full-time position of Demand Side Management Coordinator. The successful candidate will have a degree in science, resource management, engineering or a related field and hold a valid BC driver's license. Working towards a professional accreditation will be considered an asset.

You have excellent computer, data analysis and forecasting skills supported by demonstrated abilities in demand side management best practices and strategies. You possess strong research and report writing skills. A minimum of four years of experience in demand side management within local government, a water utility or a consulting firm is required.

Reporting to the Manager, Water Quality, the Demand Side Management Coordinator will develop, implement and evaluate demand side management programs and strategies focused on customer water usage and distribution system losses to meet water sustainability goals. This position is responsible for providing complex statistical analysis with respect to water supply and demand, coordinating the water loss reduction program and overseeing the Water Conservation Plan.

Come be part of a great team who takes pride in their work to enhance the very reasons the North Okanagan is such a great place to live, work and play. This is a regular, full-time position (35 hours/week) with a starting wage of \$35.96 increasing to \$41.30 per hour (2022 rates), as well as an extensive benefits package.
