PROPERTY OWNER'S ACKNOWLEDGEMENT OF RESPONSIBILITY AND UNDERTAKINGS

- understand that in consideration of being granted a permit, release and agree to indemnify the Regional District, its Board members, employees and agents from and against all liability, demands, claims, causes of action, suits, judgments, losses, damages, costs and expenses of whatever kind which I/we or any other person, partnership or corporation or our respective heirs, successors, administrators or assignees may have or incur in consequence of, or incidental to, the granting of a permit or any representation, advice, inspection, failure to inspect, certification, approval, enforcement or failure to enforce the Building Bylaw or the Building Code and I/we agree that the Regional District owes me/us no duty of care in respect to these matters;
- have checked the Certificate of Title for covenants, building schemes, easements, etc. and I/we understand that these matters are not enforced by the Regional District;
- recognize that there are areas of 'problem soils' within the Regional District which are widely distributed as to location. I/we hereby affirm that it is my/our responsibility as owner of the parcel to identify site conditions generally and 'problem soils' in particular on which the construction cited in my application is to be placed and I/we will take all action required to ensure adequacy of foundation works;
- hereby acknowledge that if granted a permit pursuant to my/our application, that it is my/our responsibility to ensure compliance with the Building Code, Building Bylaw and any other applicable enactment, code, regulation or standard relating to the work in respect of which the permit is issued, whether or not said work is undertaken by me/us or by those whom I/we retain or employ to provide design and/or construction services;
- hereby acknowledge that neither the issuance of a permit; nor the acceptance and review of plans, specifications, drawings or supporting documents; nor inspections made by or on behalf of the Regional District constitute a representation, warranty, assurance or statement that the Building Code, Building Bylaw or any other applicable enactment, code, regulation or standard has been complied with; and,
- acknowledge that I/we have been advised to obtain independent legal advice in respect of the responsibilities I/we am assuming upon the granting of a permit by the Regional District pursuant to my/our application and in respect of the execution of this document.

I have read the above acknowledgement, undertaking, release and indemnity and understand it. I understand that a Building Permit Application held on file at the Regional District and not completed within six months shall expire and all application documents may be destroyed. This application is made with my full knowledge and consent:

Registered Owner's Signature(s)

BUILDING PERMIT APPLICATION

REQUIRED DOCUMENTS

Documents required for all Permit Applications:

- ☐ Completed application form with owner information, contractor information (if applicable) and approximate construction value indicated, signed by **all** registered owners.
- ☐ Appointment of Representative form if the permit is to be applied for, picked up, or revised by anyone other than the registered owner.
- ☐ Land Title Search – Title to be dated within 30 days of application.
- ☐ Application Fee (non-refundable) as outlined in Schedule “A” to Building Bylaw No. 2670, 2015.
- ☐ Site Plan (and/or Survey Certificate) as outlined in Sections 612 and 613 of Building Bylaw No. 2670, 2015.
- ☐ Two sets of Construction plans to a scale of $\frac{1}{4}'' = 1.0'$ or 1:50. See **Plan Requirement Checklist**.
- ☐ Truss and Floor Layout – All point loads exceeding 5000 lbs should be identified on the drawings. Point loads exceeding a factored load of 15000 lbs. require the involvement of Registered Professionals specializing in Structural Engineering.
- ☐ BC Housing New Home Registration/HPO Registration Form; for the construction of new dwellings.
- ☐ Evidence of Potable Water Supply as outlined in Section 607 of Building Bylaw No. 2670, 2015.
- ☐ Interior Health Septic Approval/Proof of Sewer Connection as outlined in Section 608 of Building Bylaw No. 2670, 2015.
- ☐ Energy Advisor Compliance Report – **Pre-Construction** must be submitted at the time of application and completed by a Certified Energy Advisor.
- ☐ Schedule 1: Site Disclosure Statement.
- ☐ Affidavit for properties **NOT SUBJECT** to the Provincial Riparian Areas Protection Regulation signed by the owner and witnessed by a Commissioner (available at no charge at the RDNO Main Office), Notary or Lawyer.

Additional Documents for Specific Permit Applications:

- ☐ If a **Professional Engineer or Architect** is involved with any part of the project a Schedule B, Report on Professional Insurance and Engineer's Certificate of Insurance must be submitted at the time of application.
- ☐ If the project is located on a previously undeveloped lot, it will likely require a driveway. If the driveway will access the property from a **numbered highway, an access permit from the Ministry of Transportation is required. Access Permits or approvals are required prior to Building Permit issuance.**

Ministry of Transportation
(250) 712-3660
4791 23rd St., Vernon

For Silver Star Mountain Permit Applications:

- ☐ Snow Shed Design Plan as outlined in Section 611 of Building Bylaw No. 2670, 2015
- ☐ Roof and Foundation Drainage Plan as outlined in Section 610 of Building Bylaw No. 2670, 2015

For Complex Building Permit Applications:

- ☐ Coordinating Registered Professional Letter of Assurance (Schedule A of the BC Building Code).

BUILDING PERMIT APPLICATION PLAN REQUIREMENT CHECKLIST

Construction Plans shall be submitted in duplicate at a scale of 1:50 (1/4" = 1.0') indicating the nature and extent of the work in sufficient detail to establish conformance with the Building Code and the siting, height, and site coverage regulations in the Zoning Bylaw including. Construction Plans submitted shall bear the name and address of the designer of the building or structure.

Foundation Plan:

- ☐ building dimensions, footings, foundation walls and chimney footings;

Basement Plan:

- ☐ columns, beams, bearing walls, partition walls, door, windows, stairs, rough-in plumbing, water/sewer service lines, floor drains and clean-outs; and the location of water heater, heating, air conditioning and ventilation equipment.

Floor Plans:

- ☐ dimensions and use of every room area; dimensions and height of crawl spaces; location, size and swing of door; location, size and opening of windows; location and description of all plumbing works and fixtures; location and dimensions of all stairs; location and structural details of all fireplaces; structural details and the thickness of all walls; and the finishing treatment for all floors walls and ceilings;

Framing Plans:

- ☐ floor joists, trusses, rafters, beams and other structural elements;

Building Elevations:

- ☐ for each side showing the height of the building, finished grade, roof slopes, exterior finishes, doors, windows and other design features; and

Cross Section Drawings (at least two):

- ☐ existing and finished grades; entire roof, floor, and wall systems; foundation walls and footings; and location of draitiles.

Site Plan Details:

A Site Plan is required to be submitted in duplicate at a scale of 1:200 (1/16" = 1.0") showing:

- ☐ legal description and civic address of the parcel together with lot dimensions taken from the registered subdivision plan or equivalent information;
- ☐ measurements for the location of any existing and proposed building or structures relative to:
 - Property line in proximity to these buildings or structures;
 - The natural boundary of any watercourse within 30 metres to these buildings or structures whether on the subject parcel or on any adjacent land; and
 - All statutory rights-of-way or easements on the subject parcel.
- ☐ the location of the frontage road, driveways and other roadways including the gradient of the existing and proposed driveways to access any proposed dwelling;
- ☐ the gradient of the subject parcel as required to determine the height of any proposed building or structure relative to the maximum height permitted in the Zoning Bylaw;
- ☐ location of any septic tank and the means to access the septic tank for servicing; and
- ☐ the location of any septic drainfields, domestic water sources or water and sewer lines.

BUILDING PERMIT APPLICATION DRAWING EXAMPLES

Being a new applicant, we find that we are asked what is meant by certain drawings that we require for submission with your Building Permit Application form. In some cases, the drawings must be signed and sealed by a professional engineer or architect licensed to practice in the Province of BC. In most cases, professional assurance is not needed for small residential buildings. The typical drawings required are:

Site Plan

This scalable Site Plan should show the location and distances to property lines, adjacent street(s) and all existing and proposed buildings on the property (setbacks). It should also show the location of the driveway(s), septic tank and field (if applicable), wells, creeks, ravines, ponds, rights-of-way, easements, and a sign indicating which direction is north should also be shown.

Floor Plan

These should detail the size, shape and use of each room and space in the building, and should show the location and size of each door and window. The dimensions of each room, and the total area for each floor should also be noted on the drawings.

Foundation Plan

This drawing should show the size and location of all portions of the foundation.

Elevations

These should show the front, side and rear faces of the building. They should detail the finished ground level adjacent to the face of the building, all doors, windows, and any projections from the face of the building such as roof overhangs.

* Two elevations are shown, but you are required to submit (4) four.

Typical Cross-Sections

These should show the structure of the building in sufficient detail to assess the type of materials used and the structural adequacy. For a simple building only one cross-section is usually required. In some cases, two or more will be necessary to adequately show the nature of proposed construction.

You may not need to provide all of the above drawings in every case. For example, it may not be necessary to provide a site plan for interior renovations. Check with the Building Inspection Department or the Planning Department to ensure you have prepared sufficient drawings for our requirements.

* One Cross-Section shown, but you may be required to submit two.

PLEASE NOTE

CONSTRUCTION PLANS SHOULD BE SUBMITTED IN DUPLICATES (2) AT A MINIMUM SCALE OF 1:50 (1/4" – 1'0")

DATE RECEIVED (YYYY-MM-DD)

DATE SUBMITTED TO REGISTRAR (YYYY-MM-DD)

Affidavit for Properties Not Subject to the Provincial Riparian Areas Regulation

Property Subject to Development:

Legal Description: _____

Property Address: _____

Registered Owner(s) of the Above Property:

As the Registered Owner(s) of the above described property, I (we) solemnly affirm that the development proposed for the subject property will not be located within a “**riparian assessment area**” as defined by the *Provincial Riparian Areas Regulations* (“*Regulations*”); and

I (we) understand that under the *Regulations* “development” means any of the following associated with or resulting from the local government regulation or approval of residential, commercial or industrial activities to the extent that they are subject to local government powers under the *Local Government Act*:

- a) removal, alteration, disruption or destruction of vegetation;
- b) disturbance of soils;
- c) construction or erection of buildings and structures;
- d) creation of non-structural impervious semi-impervious surfaces;
- e) flood protection works;
- f) construction of roads, trails, docks, wharves, and bridges;
- g) provision and maintenance of sewer and water services;
- h) development of drainage systems;
- i) development of utility corridors;
- j) subdivision as defined in Section 455 of the *Local Government Act*; and

I (we) understand that a “**riparian assessment area**” is defined under the *Regulations* as follows:

- a) for a stream, the 30 metre strip on both sides of the stream, measured from the high water mark;
- b) for a ravine less than 60 metres wide, a strip on both sides of the stream measured from the high water mark to a point that is 30 metres beyond the top of the ravine bank; and
- c) for a ravine 60 metres wide or greater, a strip on both sides of the stream measured from the high water mark to a point that is 10 metres beyond the top of the ravine bank; and

I (we) understand that a “**stream**” is defined under the *Regulations* as any of the following that provides fish habitat:

- a) a watercourse, whether it usually contains water or not;
- b) a pond, lake, river, creek or brook;
- c) a ditch, spring or wetland that is connected by surface flow to something referred to in paragraph a) or b); and

I (we) understand that a “**ravine**” is defined under the *Regulations* as a narrow, steep sided valley that is commonly eroded by running water and has a slope grade greater than 3:1.

Certified By:

Commissioner for Taking Affidavits in the Province of British Columbia

Dated at _____, British Columbia this _____ day of _____, 20____

Riparian Areas Regulation Transition Policy

Any of the following associated with or resulting from the local government regulation or approval of residential, commercial or industrial uses or ancillary activities to the extent that they are subject to local government powers under Part 26 of the *Local Government Act*:

- a) removal, alteration, disruption or destruction of vegetation;
- b) disturbance of soils;
- c) construction or erection of buildings and structures;
- d) creation of non structural impervious or semi-impervious surfaces;
- e) flood protection works;
- f) construction of roads, trails, docks, wharves and bridges;
- g) provision and maintenance of sewer and water services;
- h) development of drainage systems;
- i) development of utility corridors;
- j) subdivision as defined in section 872 of the *Local Government Act*;

And which are located within a “**riparian assessment area**” which is defined as follows:

- a) for stream, the 30 metre strip on both sides of the stream , measured from the high water mark,
- b) for a ravine less than 60 metres wide, a strip on both sides of the stream measured from the high water mark to a point that is 30 metres beyond the top of the ravine bank, and
- c) for a ravine 60 meters wide or greater, a strip on both sides of the stream measured from the high water mark to a point that is 10 metres beyond the top of the ravine bank.

Then, for a local government to allow development to proceed in a riparian assessment area, a developer will be required to follow the RAR and, at their expense, hire a QEP to provide an assessment report to the Ministry of Environment and to Fisheries and Oceans Canada and the local government must receive notification from the Ministry that, in respect of the proposed development, an assessment report has been received which meets the requirements of section 4 (2) or of section 4 (3) of the Riparian Areas Regulation. For example, these requirements apply to the issuance of development permits, development variance permits or building permits for development involving a riparian assessment area or in relation to zoning, re-zoning or subdivision servicing bylaws in respect of development in a riparian assessment area.

If a development is proposed in an area that is clearly not in, or in close proximity to, a riparian assessment area, then the normal local approval process will be followed. However, if there is any doubt, local government staff may consider requiring the developer to sign a document, such as an affidavit, confirming that, in respect of the proposed development, there are no changes proposed within a riparian assessment area.. The developer will then be responsible for any consequences of not following the Riparian Areas Regulation or for providing incorrect information.

PROOF OF WATER

(requirement of Building Permit Application)

Building File No.: _____

Requirement: Customer must complete and submit prior to a Building Permit being issued, even if the property already has a water service. This form is for information only and **is not** an application for a water service.

If applicable, a \$40.00 fee is payable at time of Building Permit issuance per the current Greater Vernon Water / Small Utilities Rates Bylaw.
